Volume 3, Issue 2

Skills/EOG Review Sessions

I have decided to have Skills/EOG morning review groups starting **Monday, February 6th**.

These will begin at 7:00 am and go until 8:00 giving the children that attend an additional hour of practice with EOG type problems and test taking skills. I will be concentrating specifically on the following topics:

Mondays = Reading

Tuesdays = Math

Wednesdays = Science

These sessions will continue through June 8th.

Your child is welcome to come to 1 or all of these. I am providing them in an effort to help with the excessive amount of material that the children need to know this year. I also feel a great deal of practice is needed in test taking strategies - they will be different than anything they have ever done in the past.

I hope this will be beneficial to my students. I am looking forward to their participation.

PBIS ASSEMBLY

High Achiever Award – Mackenzie Rabon

Most Improved Award – Katelynn Comlan-Cataria

SOAR Award- Ali McInnes

The Chorus sang at this event and you can see at least 3 students from my class in the background. They did an awesome job!

Fort Caswell Field Trip

It is time to finish paying for the Fort Caswell Trip that we will be taking at the end of this quarter. Payments can be made on line or checks sent to school. If sending a check please make it out to DRES. Thank you very much. This will be a great adventure for all of the children and I am looking forward to the new experience with all of you.

Payments are due February 15th.

Weather Reports

Students signed up for one day this quarter to give a weather report. They are allowed to give weather from anywhere in the world. They can video tape their weather forecast and send to me to show the class or they can do it live. This is an awesome way to show creativity!

Science

This quarter we will be studying weather. It is a particularly difficult unit and the children should become familiar with the Study Jam videos and particularly understand weather fronts and air pressure. These are difficult concepts but if they can get these down they should do awesome.

3.01 The learner will conduct investigations and use appropriate technology to build an understanding of weather and climate.

Children's Book

Children will start writing a children's book that we will be sending off to be published at the end of the quarter. These will be written and illustrated by the children and published in a nice hard bound edition. When the books are returned from the publisher they will be sent out to be judged in a variety of areas. The awards will then be presented at the Author's Tea later this year.

Leader Program

Raleigh Police Department

Learning To Earn and Demonstrate Exemplary Respect

The LEADER Program was developed through a partnership between the Wake County Public School System and the City of Raleigh Police Department. The program is designed to address the specific needs of students here in Wake County. We started our Pilot Program during the 2015/2016 school year and have since made some major changes. Currently LEADER has 8 sessions, meeting with our schools on a weekly basis. Classes run for 45 minutes and each school is assigned one day per week. The schools choose their own daily schedule and

To inspire individuals to reach their full potential and prepare them to succeed in the global community in the 21st century.

range from 3 to 6 sessions per day, depending on the number of 5th grade classrooms. The Foundation of LEADER is based on what we call the TRaC system... Teamwork, Respect and making good Choices. The overall goal of LEADER is to give students the tools they need to succeed throughout their entire school experience and beyond.

Topics covered include:

1. Introduction/Police Role & Safety
2. Peer Pressure & Role Modeling
3. Bullying
4. Gang Awareness
5. Family Relationships
6. Alcohol, Tobacco & other Drugs
7. Internet Safety
8. Decision Making & Goal Setting

A mentoring component of LEADER is built into the program as well. Officers can work with students on an individual basis as recommended by the classroom teachers or as needed and determined by the Officer, teacher and parents.

Pringle's Book Report

The Pringle's Book Report is a character analysis book report comparing two different characters in a fictional book. This is the first book report of the quarter. I will be sending a copy by e-mail and you can find the directions on line as well. This Book Report is due this Friday, February 3rd.

Special Delivery Invention

The Special Delivery Invention requires building a device that delivers a message a distance of 20 feet.

Math

This week we will be taking a CASE Math Test to determine areas that need to be worked on prior to EOG that were covered the 1st half of the year. This quarter there is an emphasis on FRACTIONS. The EOG is $\frac{1}{2}$ fractions and the children really need to know and understand the processes in adding, subtracting, multiplying and dividing as well as reducing fractions and mixed numbers. If we have weather events that take us out of school I will be sending email and video lessons to help keep us up to date. IXL is a great place to work as well. I will be giving specific assignments on fractions, but lessons above and below level are easy to access on IXL to help with remediation or enrichment/acceleration.

Up Coming Events

- **January 30th - March 21st - Student Weather Forecast Presentations**
- **February 3rd - Pringle's Book Report Due - Character Analysis**

- February 10th - Special Delivery Invention
- February 10th - Band Recruitment Program
- February 10th - Early Release
- February 13th or 14th Nursing Home Visit (Still Working on Trip)
- February 17th - Typed Summary Book Report
- February 17th - Newton's Lab - In- School Field Trip
- February 24th - Weather Portfolio Due
- March 3rd - Body Works - In -School Field Trip
- March 3rd - Newbery Book Report
- March 10th- Town Meeting Project 9:30 -12:00
- March 14th - Nursing Home Invention - Presented at Nursing Home
- March 17th - Children's Books Due
- March 21st - Storm Chasers - In-School Field Trip
- March 22nd- 23rd - Fort Caswell Field Trip
- March 24th - Early Release/Track Out Day

Wanted/Needed

- Empty Tissue Boxes for Science Specials
- 32 baby food jars – cleaned (For building barometers)
- Medium to large balloons for barometers
- Volunteers to work with student editing on children's books (A bit later in quarter)

To inspire individuals to reach their full potential and prepare them to succeed in the global community in the 21st century.
