Volume 4, Issue 2

Washington DC

I would like to thank all of the parents who volunteered to be chaperones for the Washington DC trip. Your help made the trip a great success and you are truly appreciated by me and all of the children! I am putting together a video/ collage of the trip. I would appreciate any pictures that you think would be great to add that either you or your child took on the trip. Thank you in advance for any photos!

The Jarrett Report

Volume 4, Issue 2

EOG Review Sessions

These will begin at 7:15am and go until 8:00 giving the children that attend an additional hour of practice with EOG type problems and test taking skills. I will be concentrating specifically on the following topics:

Mondays = Reading

Tuesday = Math

Wednesday = Science

These sessions will continue through June 14th.

Your child is welcome to come to 1 or all of these. I am providing them in an effort to help with the excessive amount of material that the children need to know this year. I also feel a great deal of practice is needed in test taking strategies - they will be different than anything they have ever done in the past.

I hope this will be beneficial to my students. I am looking forward to their participation.

Quiz Bowl

Starting this Friday students will be competing in Science Quiz Bowl Teams. The concentration this week will be on Ecosystems. Coming to Wednesday morning reviews will help them prepare as well as studying science notebooks and released EOG tests. We will be competing against 5 different classes and our class will be divided into 5 different teams to compete.

Science

In science this quarter we will focus on Motion and Design. Students will be building vehicles using Kne'x and learning about the physics of motion and looking at how design affects the function of the various vehicles that they create. **The Motion and Design Invention** has been replaced with the in class rollercoaster project. I am very excited about this activity. We have been given one of the track out trailers to complete this activity.

Math

This week we will begin our study of volume.

Up Coming Events

June 29th – Last Day of School- Awards Ceremony

*There is a lot more to add but I started working on this too late so I will make it more in depth next week.

Author's Tea

I need a parent to coordinate and organize the Author's Tea. It is a formal event located in the Media

Center. This would deal with coordinating the food and set up of the Tea itself. Gather prizes would be a great plus😊
Items Needed for Tea:

- Prizes to place in the goody bags for the tea
- Goodie Bags

Project Positivity

The week's focus for Project Positivity is Teamwork. This will be a great focus to begin preparation for the Science Quiz Bowl!

Wish List

Flats of flowers – we have places for shade and sun flowers.
